

# **Golf Lakes Pickleball Club**

## **2024 – ANNOUNCEMENTS**

### **October 2024**

During the winter of 2024, the free website software I am using to create our pickleball website, was updated to version 5. The GLPC website was created using version 4 of the software. All templates created with version 4 cannot be read or updated using version 5 of the software. As a result, I have recreated the pickleball website over the summer using version 5 software. Since this software is FREE, I have no recourse to complain.

The old website is still accessible at a link on the bottom to the archives page, since I am not planning to recreate all the stats on the archive page.

I am looking forward to the new season!

Larry Van Deventer
